

BC Ski Trip 1: Revelstoke Mountain Resort

BC Ski Trip 1: Revelstoke Mountain Resort, Revelstoke

Friday January 19 - Sunday January 21

Opened less than a decade ago, this incredible gem won't disappoint. Imagine Blackcomb bowl, but with 30x less people. With the highest lift-serviced vertical in North America at 1710m, the pitch at Revy offers both spectacular views and challenging runs. This is a very special mountain. The reasonable food costs in this great town make this getaway affordable too.

The Mountain is stacked with glades, single black powder runs, a sweeping, sweet back bowl, and glorious steeps unencumbered by the hordes at Whistler sweeping runs clean of powder. These qualities have earned Revy one of the top rankings overall in North America! Don't miss it!!

Please note: this mountain would not be easy for beginner skiers/boarders, but intermediate-level will find the mountain and town exhilarating. Expert alpine level will never be bored with off-piste opportunities galore!
