

The DaVinci Experience

TBA - The DaVinci Experience

A multi-sensorial journey with high quality images projected onto a 360 degree canvas. Impressive model replicas built to scale of Da Vinci's machines.

Guests can stay up to one hour and walk through the many models both full size and in scale - reproduced by the Florentine workshop in great detail based on the original projects. As well as the models, there is a virtual reality presentation projected on floors and walls covered with his incredible vast collection of works.

If interested, contact Louise and we will work out a day/time to attend. Show is open 7 days a week 10am-6:30pm (11am on Sunday/Holidays) and runs until end-August.

Date:

Contact Louise to arrange a date and time
